29 November 2023

**JAIMÉ SALVADOR**  
OIC CENR Officer  
CENRO-Zamboanga City  
Gen. Alvarez St., Zone IV, Zamboanga City

Dear Sir Salvador,

A pleasant day!

The Bachelor of Science in Environmental Science Program in Zamboanga State College of Marine Sciences and Technology would like to organize training on **Geographic Information System (GIS) mapping to the BSES 4<sup>th</sup> year students who are currently enrolled in ES13 (Environmental Remote Sensing (Theory and application) subject on November 30 to December 01, 2023, 8am-5pm, at the ZSCMST Computer Laboratory.** The primary objective of this training is to expose our students to the practical applications and significance of GIS mapping within the context of environmental studies, and to enhance our students with the technical skills required to effectively use GIS software and tools which includes spatial data analysis, map creation, and database management.

In view of this, the undersigned would like to humbly invite **For. Allanbrian Pogoy** to share their expertise on the aforementioned activity. We do believe that with the distinguished experience and expertise of your personnel in GIS and their successful track record in conducting training sessions in different agency and institution, he can guide our students in gaining practical insights into GIS applications. Our course program is particularly interested in urban planning and environmental management and is eager to apply this knowledge to our future research endeavour.

We are hoping that our simple request merits your kindest approval.

Thank you very much and God Bless your administration.

Very respectfully yours,  
  
**ROXCETTE A. MANDAO**  
Instructor
