

Bachelor of Science in Environmental Science

BAGONG PILIPINAS

AREA I

IMPLEMENTATION

I.5 | The VMGO are widely disseminated to the different agencies, institutions, industry sector, and the community

Implementation

I.5. The VMGO are widely disseminated to the different agencies, institutions, industry sector, and the community.

The Dissemination and Acceptability of the New/Existing VMGO

VMGO Dissemination and Acceptability Questionnaires were distributed last September 2022. It was circulated to measure the awareness and acceptability of the stakeholders of the institution on the VMGO. The survey was participated by different stakeholders: **students enrolled in the College of Fisheries and Marine Sciences (CFMS), alumni of the institution, parents**, and even **stakeholders** of the Zamboanga State College of Marine Sciences and Technology (ZSCMST): **LGU Officials of Zamboanga City, BFAR IX representatives**, and **members of the Community of Barangay Mampang and Rio Hondo**. The survey was conducted and the results of the survey was processed using the MS Excel application. Based on the results of the survey, the stakeholders were aware of VMGO and these stakeholders also understood and accepted the Vision and Mission of the ZSCMST, Goals of the CFMS and Objectives/Outcomes of the different programs of the college.

Sample answered questionnaires are given on the attached images. These are the following:

- Questionnaires answered by parents
- Questionnaires answered by LGU Zamboanga City Official and BFAR IX Official/stakeholders
- Questionnaires answered by Mampang stakeholders/Community Members
- Questionnaires answered by Rio Hondo Stakeholders/Community Members

Questionnaires by an LGU Zamboanga City Official and BFAR IX

**ZSCMST VMGO DISSEMINATION AND ACCEPTABILITY
QUESTIONNAIRE**

Name of Respondent: HAIRUN A. MUNXP

Status:

- Student (Course, Year & Section): _____
 Alumnus (Year Graduated) : 2014
 Stakeholder (Agency/Company, Community, Parent) : LGU-ZC

VISION

A world-class institution for higher learning, research, development and innovation in fisheries, marine sciences, maritime education and technology by 2024.

MISSION

Provide quality education and relevant research and extension to produce globally competitive human capital for fisheries and other marine-based industries.

GOALS OF THE COLLEGE

- 1.) Develop a breed of competent professionals graduates with high standards of work ethics and with specialized skills in the field of fisheries, natural and applied sciences.
- 2.) Enhance faculty expertise in their respective disciplines and upgrade instructional facilities;
- 3.) Provide degree fellowship/training opportunities to faculty and research staff on the following areas of concern: computer-based stock assessment methodologies and research analysis, ecological systems modeling, environmental impact assessment, fish genetics, fish/food nutrition, development of research tools, technical writing, bio assay, bio-technology, socio economic research and research management;
- 4.) Initiate/spearhead the rational exploitation of the region's fisheries and marine resources thru the necessary leadership in multi and inter disciplinary research undertakings, training and development programs;
- 5.) Promote environmental protection and rehabilitation of identified marine ecosystem by developing and implementing an effective resource management program;
- 6.) Coordinate with concerned government and private institution in the monitoring, evaluation and documentation of the fishery and other marine resources in the primary service area.
- 7.) Conduct basic and applied researches to generate the much needed information and technology for the fishery/food sector and ecosystem management.

**OBJECTIVES/OUTCOME OF THE MASTER IN FISHERIES MANAGEMENT
MAJOR IN AQUACULTURE TECHNOLOGY PROGRAM**

Graduates of the Master in Fisheries Management Major in Aquaculture Technology should be able to:

- a) Articulate deeper knowledge in fisheries diversity and its relevance to Biology, Economics, and Social Management Systems.
- b) Demonstrate fisheries management concepts that will enhance its use and practice.

Directions: Please tick (/) the column corresponding to your reply.
